• **FINISH B/207**

b) water borne, 1 or 2 K

• **IDRO-KOR B/396**
• **AQUA-KOR B/552**
• **AQUA-KOR B/399 (P.U. – 2K)**

PALKOR

executive MANAGEMENT

the target is to allow all the USERS to reproduce in its facility through right machine the standard PAIK-KOR quality

- **SYSTEMS BASED ON "DOUBLE CONVERTER"**
  different per each system

- **COLOURING PASTE B/260 – very high quality**
  for all the systems

- **SUITABLE PACKING SYSTEM**

PALKOR

practical MANAGEMENT

the target is to allow all the USERS to work in the easiest way

- **BASE** → *multiple of 4 Kg*

- **HARDNER** → *catalysis with united weight*

in order to avoid dosage difficultly to be done, all the formula are developed on 80 Kg with weight at the second decimal figure

it is not necessary to weight amount of material lower than 1 gr also for 4 Kg of product

- *A NUMERIC EXAMPLE*

Let's suppose that 80 Kg of paint contain 8.42 of PASTA B/260 BLACK
On 4 Kg of the same product: 8.42 Kg / 20 = 0,421 Kg = 421 gr !!!

PAI-KOR

software MANGEMENT

it will be supplied part of the PAI-KOR management software that will allow USERS *to:*

- product's manufacturing sheet
- up-load and down-load of raw material
- stock management
- purchase orders
- tests on manufactured products
- labels
- material, technical an d safety data sheet

EFFICIENT AND SET UP OF THE RELATIONSHIP

PAI-KOR

systems DEVELOPED

- **4 CONVERTERS SERIE P.I.A.**
  gloss & matt

- **4 CONVERTER SERIE B/691**
  opaque, satiny to glossy

- **2 CONVERTER SERIE B/690**
  shiny

- **COLOURING PASTE B/260**
  for all the products
